

# WHAT IS THE CENSUS?

Every 10 years, the U.S. census is sent to every household in the country. It contains 10 simple questions and only takes 6 minutes of your time. It's a safe and secure way to obtain \$13 billion in funding for our state's future.

## WHY IT MATTERS.

An accurate census count is important for programs like health care, education, roads and bridges, jobs, congressional representation, and more.

## HOW DO YOU FILL IT OUT?

Everyone will receive a postcard in March 2020 from the U.S. Census Bureau with instructions. You can complete it in three ways: online, telephone, or a mailable paper form. On average, it only takes 6 minutes to complete.

## WHAT IS AT STAKE?

### **\$13 BILLION**

Alabama can obtain \$13 billion in federal funding used to improve our state's future. This money means better health care, schools, roads, job opportunities, housing assistance, and more.

### **JOB SECURITY**

Alabama could lose the opportunity for economic growth. This would result in fewer new jobs, businesses, investments, and more.
